

Introducing... The iPad!

iPads and iPod Touch are engaging!

- Variety of educational apps available
- Read books from a variety of online bookstores such as Itunes store, Amazon, Barnes and Noble, Google books
- Access to email, Internet and other sources of information
- Check out library books

What I Love

- Size of screen
- Screen resolution
- Great for reading magazines and newspapers
- Can choose my reading app (Nook, Kindle, iBooks, Bluefire)
- Easy to zoom in and out
- Functional tablet for productivity
- Works with OverDrive
- I can save library books to MyDropbox and open on the iPad

What I Don't Love

- Weight is heavy if you're reading for a long period of time
- Can't read outside if the sun is shining (big vacation problem)
- Back lighting causes eye strain
- Too many distractions when reading (Internet, Facebook, Twitter, etc.)

E-Reader Apps

- Copia
- Nook
- Kindle
- iBooks
- Stanza
- BlueFire Reader
- Google Books
- OverDrive
- CourseSmart
- Kobo
