BOOKTALK:

This story is best told in the words of Tim Burchard, the umpire on that fateful day:
“It’s the worst sound I’ve ever heard
In all my years of umping.
Oh, I’ve heard plenty of pitches hit a helmet.
But this . . . this fastball, up and in.
This one hit bone, right in the face
Not even a scream or grunt from the kid.
He went down like he was shot.

I know him.
I’ve umped and reffed
Maybe a dozen of his games.
Not just baseball –
Football and basketball, too.
The kid’s a great athlete, a natural.
That’s why it was such a shock to see him
Go down like that.

The screams come from everywhere:
bleachers,
dugouts,
infield,
mound.

Even from me.”

Told in free verse by Luke's friends, coaches, family, and even Luke himself, *Beanball* is a story of survival. How do you adjust when your life drastically changes? Read *Beanball* by South Carolina author Gene Fehler to find out.

Fat Girl Fuming, Part I

Check out these pics. [insert image of saleswomen here: make Blowfish prominent]

These women did not want to sell me a shirt.

Why?

Because I’m fat.

And Hotchix clearly doesn’t want to wait on me at all. And they had plenty to say, trust me, as if Fat Girl doesn’t have ears and can’t get her feelings hurt just like the next girl.... Ask any Fat Girl you know, or any large gut for that matter. They’ll tell you what it feels like to walk into a store like this and be glared at like you’re nasty rotten gum on the bottom of somebody’s pointy-toed witchy-poo shoe.....

Hotchix is nothing special, nothing new, and definitely not alone. A few years back, a big clothing designer----who used to be fat himself, by the way----actually had a little snit when some of his creations were manufactured in “larger sizes.” (Uh like size 14? That’s sooo large.) “What I created was fashion for slim, slender people,” he said.

Seriously!

If you don’t believe me, look it up.

So, many----maybe most----of the major designers don’t offer “large sizes” (large being defined seemingly at random). If they do, it’s only online, not in the brick-and-mortar stores. So, my friends and I, who are all different sizes, can’t go clothes shopping together, even for the Senior Shoot.

Never mind the fact that large sizes are lots more expensive, so for those of us not rolling in dough, it’s Diana’s and the West End or nothing. And I’m sorry, I’m too cool for Diana’s and the West End. Besides, the air just doesn’t smell good in there.

I need more options. I need real clothes I can actually wear and afford. I need a blue shirt with a wonderful pattern to match my skirt.

Is that impossible?

According to Hotchix and some clothing designers, I guess it is.

Fat Girl Freaking, Fat Boy Chronicles I

My freak-out cauldron is approaching rapid boil.

I've been gigantic since I was born.....

My boyfriend Burke, who has given me permission to dub him Fat Boy, must feel like he has a lot to live down. He's tried of assumptions, stereotypes, snarky comments, and attitude thrown in his general direction. He's tired of the things people say.

Mostly, he's tired of being Fat Boy.

Yeah, that's right. Fat Boy has had enough. He's so sick of it that he's going to risk his life to change his outsides.

What do you think of that?

Fat Boy's giving up football.

Fat Boy's giving up a chunk of his senior year, and some of his counts-for-college grades.

Fat Boy's going under the knife, and all Fat Girl can do is watch and pray and make sure all or you every one of you in this whole school, get this one crucial point" Obesity surgery is not an easy way out of being fat.....

You have no idea what Fat Boy is about to go through to look more "normal" to feel more "normal".....

By this time next year, because he's choosing surgery, Fat Boy has a one in twenty shot of being Dead Boy.

Dead and buried from surgical complications.

But he's had enough, and he'd rather be dead than fat.

BOOKTALK:

From the Christmas Eve night when Clay, dirty and broke, wound up on Joey's doorstep, the two became best friends. They were an unlikely duo. Joey's family was wealthy; Clay's was poor. Joey made friends easily; Clay did not. Even so, the two seven-year-old boys quickly formed a friendship that they intended to last a life time, and they sealed the bond by becoming blood brothers.

The boys remained close until one fateful summer night after graduation when they argued over a girl. Clay, who dreamed of becoming a doctor but did not have the means to attend medical school, wanted the girl. The spoiled rich girl wanted Joey, the valedictorian preparing to enter Duke as a pre-med student. Joey didn't want the girl, but that didn't matter. Clay, hurt and angry, exchanged words with Joey and left. He never dreamed that his bond with Clay would never be the same again.

The next day, Clay went to Joey's house to patch things up with his friend. When he arrived, something was terribly wrong. He found Joey naked, obviously drunk, and in a state of rage. As he was making a 911 call for help, Joey attacked Clay with a hoe. In self-defense, Clay knocked Joey down.

Suddenly, Clay's world was in turmoil. Joey's condition continued to deteriorate, and Clay was left to wonder if his self-defense action was a factor. Also, the police chief kept questioning him about his whereabouts on the afternoon before the 911 call and whether or not the boys took drugs. Joey's parents, especially his father, blamed Clay for their son's condition, and mistakes at work lead to Clay's dismissal. As Joey fought for his life in intensive care, Clay vowed to

find out what really happened to his friend. With his world crashing down around him, Clay has to reach deep inside himself to find the strength to rebuild his life, with or without Joey.

This fast-paced, action-packed novel is sure to be a hit with reluctant readers and anyone who enjoys hospital drama.

BOOKTALK:

“‘I was proud of my work on you,’ he said slowly, looking at Clary. ‘So clean. So perfect. What you saw you would forget, even as you saw it. No image of pixie or goblin or long-legged beastie would remain to trouble your blameless mortal sleep. It was the way she wanted it.’

Clary's voice was thin with tension. ‘The way who wanted it?’

Magnus sighed, and at the touch of his breath, the fire-letters sifted away to glowing ash. Finally he spoke—and though she was not surprised, though she had known exactly what he was going to say, still she felt the words like a blow against her heart.

‘Your mother,’ he said.”

Clary Fray has always felt that something is missing in her life. Maybe it has something to do with her father dying before she was born. Then again...maybe not.

After witnessing a murder at the Pandemonium Club, Clary is introduced to a world she never knew existed. The murderers reveal themselves to be Shadowhunters, or demon killers. BOOKTALK:

Mary had nothing. One day she was Lady Mary, foster daughter to Lord and Lady Macbeth, and engaged to the wonderful Asleif, who would one day own Gledstane Castle, and the beloved daughter of the rich and powerful Thane of Cawdor. Just hours later, she had nothing. During a fierce battle with the army of Norway, her father had betrayed the king, and afterwards, confessed to being a traitor, and was executed. People, who had respected her the day before, now looked at her with hatred. She sat still and quiet at the victory feast, waiting to see what her destiny would be. There were not many choices—all her wealth and property were gone. Her engagement was over. She was nothing now. But she was still young and beautiful and innocent—the celebrating soldiers eyed her lustfully. Now that she was their equal, she could be forced to marry any of them. That was, if the king didn't decide to execute her, or Lord and Lady Macbeth didn't decide to send her to a nunnery for the rest of her life. These were the only things left to her—death, a loveless marriage, or the life of a nun.

But Mary didn't know that the strange prediction by the three Weird Ones, witches who haunt the moor, was about to come true. Greed and deceit filled the castle, and as a result, her life was about to change again.

"Double, double, toil and trouble,
Fire burn and cauldron bubble....

When shall we three meet again, in thunder, lightning or in rain?
When the hurly-burly's done, when the battle's lost and won....
All hail Macbeth, Thane of Cawdor,
All hail Macbeth, who shall be king hereafter."

Macbeth will do anything to gain the throne, but no good can come of witches' predictions, when they are misunderstood and misused.

Goals. Bigger, faster, stronger. Be the BEST. This is what has been drilled into freshman Mick Johnson by his former football standout father. A whole wall sits empty just waiting for trophies and accolades. An accomplished eighth-grade player, he is asked to attend conditioning with the high school team. At summer's end- it seems the dream is coming true- he is on the varsity team. However- just making the team is not good enough- he wants to start. His goal for improvement starts innocently enough, with legal weight/ bulk pills and protein powders, but gaining size naturally was not giving him a quick enough edge. Mick starts attending a new gym under his father's insistence, and there gains his own personal trainer, Peter. Peter has different ideas of how to increase Mick's power, something that Mick once would never have thought about doing, but with the possibility of starting in his sight- he will do anything. The question is- how far will he go? How much will he sacrifice to be bigger, faster, stronger? The best?

This is a hard-hitting, true to life story that everyone who knows/ is an athlete should read. The ramifications of being excessively competitive as opposed to being simply "driven" are a major point in the book that all student athletes should understand.

BOOKTALK:

As if being an orphan wasn't hard enough, our heroine in this swashbuckling adventure is also a female pirate with extraordinary powers. In her world, having these powers means she should be owned by the Danisobans, evil magicians who steal away gifted children like herself, at birth. She has worked hard to not let anyone but one, Captain Binns, know of her power--and now he has been captured! She has to find a way to save her captain, without using her powers or letting anyone know. All this--with a crew that is changing their minds as constantly as the wind, and a handsome stranger she does not know whether to trust or make walk the gangplank. Plot twists and a sublime ending lend to an exceptional first novel from Misty Massey.

BOOKTALK:

It all starts with a simple coin toss. Naomi picked heads, and that decision led to a whole series of events that changed Naomi's life. She had to go back and get the yearbook camera. She hit her head on the steps. She woke up in the ambulance with amnesia. Maybe, Naomi should have picked tails. If she had, she would have remembered her boyfriend, Ace. She would have understood why her best friend called her "Chief." She would have known about the new people in her parents' lives. Naomi chose heads, but she should have chosen tails. Heads or tails – how many times have you chosen? Would you change your choice if you could? You might want to ponder this question as you enjoy reading *Memoirs of a Teenage Amnesiac* by Gabrielle Zevin.

BOOKTALK:

“The ZTs keep taking things away, and the more they take, the more they hope we’ll forget, so that one day there won’t be any remembering. There will only be what they tell us. But we have to remember. And keep remembering. No matter what they do to us.”

In the not-so-distant future, the Zero Tolerance Party is in complete control. Nearly everything is restricted, the country is surrounded by walls, and those who resist the government are met with prison or death.

Marena is a prisoner in this world. She is only allowed to go to the Youth Training Facility where children are taught only what the Zero Tolerance Party wants them to learn. Kept under strict house arrest because of her mother’s resistance to the ZTs, Marena struggles to remember what life was like when her family was together and free. She tries to write down what few memories she has, but that becomes increasingly difficult when owning paper becomes a criminal offense.

Marena knows that the government is wrong, and she becomes determined to change things. She draws inspiration from Sophie Scholl and her friends, a group of teenagers who resisted Hitler’s rule in Nazi Germany and called themselves the White Rose. Marena gathers her friends and forms her own White Rose. She is determined to change this dystopian world in which the simplest freedoms are no more.

When the ZTs get wind that teenagers are organizing a rebellion against the government, Marena's very existence is in jeopardy. The ZTs will go to any lengths to suppress this resistance, and Marena must decide if she is willing to sacrifice everything for freedom. Will she succeed, or will the Zero Tolerance Party crush Marena and the White Rose? Read James DeVita's *The Silenced* to learn the truth, and remember that **"You have no right to be silent!"**

Janie's head is pounding. She's clammy. Cold. Her face slides in blood on a cold tile floor. She thinks her eyes are open, but her vision is taking a long time to return. She can't move her body. In the distance, she hears Cabel, calling her name, calling the guard. Carrie is screaming. For Janie, everything is black as night.

Welcome to the world of seventeen-year-old Janie Hallagan, who, at the age of eight, discovered that she was an unwilling participant in the dreams of other people. No one's secrets are safe from Janie, or their nightmares. Janie gets all the dreams, bad or good, of anyone who falls asleep near her. She is desperate to find a way to stop experiencing the dreams and to keep anyone from finding out what happens to her. After all, she doesn't want to be known as a freak.

Life gets more complicated for Janie when she takes a job at a nursing home to save money for college. Trying to juggle a nighttime job and school is a challenge. Provides connections to the racing world

BOOKTALK:

I've got everything and nothing going for me. I am in a jazz ensemble that could go far if we practice and commit enough. I have a girl that seems to like me a lot. I have a chance to drive for our family's racing team, a legacy. All of these sound great, don't they? But each has the potential to crash and burn – literally and figuratively.

I'm Kyle Hillebrand and all of these things are coming together at once. My older brother has medical issues (could I have caused it?) and I am asked to "sub" for him in one race. The next thing I know, there's a win and I have to race again. But if I do that, then I can't go to jazz practice and that will disappoint the jazz group and one special girl. Everyone else has a commitment for my future – but I don't know which one is the right one for me.

But she's not the only girl in my life. There's one hot girl who has joined the racing team and there's my mom who encourages me to "make my own decisions" privately but supports my dad in public.

Decisions, Decisions. Each one has a winner and a loser – just hope the loser isn't me.
